for free!

Sunday

Grower's Estimate and the Market Opens

The growers take a look at their gardens and pastures and estimate what they'll have ready to harvest that week. The website is updated, and an opening market e-mail goes out to customers that night. Start shopping!

Monday

The Market Is Still Open

Order early for the best selection.

Tuesday

Shop all day

Orders can be placed until 8 p.m. on Tuesdays. If you realize you forgot something on Sunday or Monday, just come back and place another order.

Wednesday & Thursday

Growers Harvest

The growers get a notification of their orders for the week. They harvest and pack their orders.

Friday

Customer Pickup

The growers bring their harvests to the pickup just prior to your arriving to pick up your order. You pay for your orders then, with cash or check.

PICKUPS

every Friday
from 4 p.m. to 6 p.m.
at Saint Peter's Episcopal
Church
925 Mitchell Street

SUSTAINABLE LOCAL

LOCALLY GROWN

SMALL FARMS MAKING A DIFFERENCE

We believe that small, diverse, family-owned farms contribute to society's overall health.

WELCOME TO OUR MARKET!

Conway Locally Grown is an online farmers' market that began serving Conway and the surrounding areas in May 2008. This market runs year-round and coordinates with local farmers to provide Conway with the freshest and highest quality fruits, vegetables, eggs, and meats.

All of the producers farm using strict and transparent standards that ensure clean, safe, humanely produced foods. All products sold at Conway Locally Grown are produced within Arkansas.

Unlike other co-ops, buying clubs, and CSAs where everyone gets the same box of stuff—and you don't know what you're getting until you get it—with Conway Locally Grown you get to order what you want, in the quantities that you want, from the farms that you want.

To use Conway Locally Grown, please visit our website conway.locallygrown.net. Once you're there, create an account, and then you'll be able to order.
